

TRAINING CATALOGUE

Develop your knowledge in humidification thanks to our trainers and learn skills with our new installations that will allow you to have both practical and theoretical experiences to better understand the humidification principles, product selection, operation, sales arguments and applications.

TRAINING ACHIEVEMENTS

Understanding of psychrometry for humidification, knowledge of product ranges, commissioning and maintenance of Devatec and Armstrong equipment.

METHODS

Classroom training at the Devatec headquarters in Offranville.

ADMISSION REQUIREMENTS

Depending on the course:

- Commercial knowledge of the HVAC (Heating, Ventilation and Air Conditioning) sector.
- Understanding of how ventilation and air treatment systems work
- Basic electrical knowledge
- Basic plumbing knowledge

TOOLS AND RESOURCES

Our various learning programmes are tailored to your specific needs. You will have access to practical exercises and visual support. Our Learning Centre is equipped with modern, high performance training tools.

ASSESSMENT METHODS

Evaluation forms during the class. Delivery of a certificate of achievement.

OUR TRAINERS

Our trainers are experts in the field of humidification and have a deep knowledge of the equipment.

OUR PROGRAMS

Electric Humidifiers

One day and a half

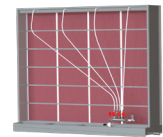

- Humidification theory, psychrometry and isothermal humidification
- Technical (principle of operation, installation and commissioning)
- Maintenance (service, troubleshooting, spare parts)
- Sizing and selection
- Applications and references
- Practice

EvaPack™ Initiation

One day and a half

- Humidification theory, psychrometry and adiabatic humidification
- EvaPack™ configuration, sizing and selection
- Commissioning and maintenance at training center
- Applications, decarbonization and case studies
- Practice

EvaPack™ Advanced

One day and a half

- Humidification theory, psychrometry and adiabatic humidification
- EvaPack™ configuration, sizing and selection
- Commissioning and maintenance at training center
- EvaPack advanced course (regulation, controls and special cases)
- Practice

Live Steam series 9000 & 1000

Half-day

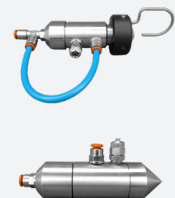

- General humidification presentation (benefits of humidification, applications)
- Humidification theory and psychrometry, isothermal humidification
- Live Steam series 9000 & 1000 (operation, selection, commissioning, maintenance and applications)
- Practice

FogSystem BUS & BV

Half-day

- General humidification presentation (benefits of humidification, applications)
- Humidification theory and psychrometry, adiabatic humidification
- FogSystem BUS & BV (operation, selection, commissioning, maintenance, applications and product demonstrations at training center)
- Practice

Steam bath

One-day

- Sizing and selection
- Technical (principle of operation, installation and commissioning)
- Maintenance (service, troubleshooting, spare parts)
- Practice

USEFUL INFORMATION

INSCRIPTION

In order to process your training request as efficiently as possible, please use the contact form on the **contacts page** of the www.devatec.com website.

SCHEDULE

There will be several sessions per year for each training. We will inform you by email in advance about registration dates to give you some time to organise yourself. Every training will be free for our partners and limited to eight people.

ACCOMODATION

We have partnerships with local hotels in Dieppe at less than 15 minutes by car from our Devatec factory. We will provide you more details during training registration and help you with hotel reservation.

ARRIVAL & DEPARTURE

Each participant is responsible for arranging his/her transportation to Dieppe. You can contact export@devatec.com for help.

MEAL

Devatec is taking arrangements for all your meals during the entire training period. If you have a specific diet, please inform us.

CERTIFICATION

We will be happy to give you a training certificate at the end of the course !

ADDRESS

The training sessions will take place in our new headquarters, located at 185 boulevard des Frères Rousseau 76550 Offranville.

FOR WHO ?

Our trainings have been thought for everyone. We provide trainings dedicated for each levels beginners as well as experienced people and for all type of business. Engineers, sales engineers and technical staffs are welcomed.

OUR TRAINING CENTER

It is equipped with a standard AHU for EvaPack™ and a transparent AHU where you will be able to see and operate our different technologies of humidifiers (EvaPack™, nozzles, electrodes and resistive humidifiers).
