## ADVANTAGES OF STEAM BATH

### OPTIMUM SAFETY

Our devices are provided with accessories guaranteeing a safe wellness experience:

- A high-reliability dual sensor temperature probe
- An anti-burn and anti-condensation PTFE steam nozzle
- An emergency stop option

### GREAT COMFORT

Thanks to its silent steam diffusion, the Steam Bath makes your hammam session more relaxing.

### ENERGY SAVINGS

The humidifier reduces water consumption and energy costs through a system that allows :

- To use all types of tap water with no softeners needed
- To optimize draining of hot water according to the quality of water used
- To stop hammam when it is not in use

# BENEFITS OF STEAM

## BENEFITS ON BREATHING

Steam improves breathing by relieving the sinuses and bronchial bronchia; soothes the throat and reduces the risk of allergies.

## SKIN BENEFITS

Steam opens the pores of the skin, removing toxins and impurities from the inside. Its action cleanses and moisturizes, improving the quality of the skin. It also prepares the skin for exfoliation and care, and gives a natural healthy glow.

## MUSCULAR RELAXING

Steam bathing helps relieve muscle tension and alleviates joint pain. Steam also increases muscle flexibility, making it easier to stretch and rest after an effort. Muscles recover more efficiently and quickly.

## CARDIOVASCULAR BENEFITS

Steam bathing strengthens the metabolism, reduces blood pressure and also helps the body get rid of excess sodium. Combined with the cold, it increases blood circulation.

## PSYCHOLOGICAL BENEFITS

Steam bathing relieves stress and anxiety, promotes a sense of well-being and deep, restful sleep.

# Devatec Steam Bath : **performance and reliability** for wellness centres.

Founded in 1981, Devatec is a French manufacturer, based in Normandy and specialized in air humidification systems.

Devatec belongs to the Armstrong International group, world-renowned for its innovative solutions in steam, air and hot water systems.

Devatec is the only French company able to provide a wide range of efficient humidity control solutions and has an international presence in more than 70 countries.

Certified ISO 9001 and ISO 14001, Devatec offers steam generators adapted to all your well-being installations. Steam Bath devices offer reliability, comfort and safety in every use.
